Door Finishing & Ironmongery

Door Finishes –

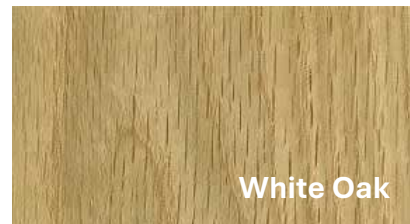

Every fire door is finished to the highest standard, combining exceptional craftsmanship with a wide choice of premium painted and real wood veneer finishes. Whether your project requires a contemporary colour palette, a traditional timber appearance, or a completely bespoke specification, we offer an extensive range of options to complement any interior. Our advanced colour-matching service enables us to accurately replicate virtually any paint or stain specification, ensuring seamless integration with your design vision. The result is a beautifully finished fire door that delivers outstanding aesthetics.

Ironmongery –

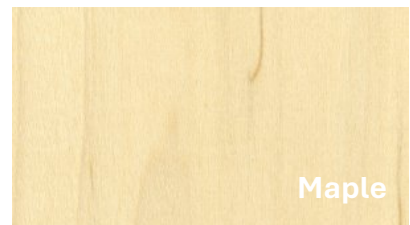

The performance of a fire door extends far beyond the door leaf itself. That's why we offer a carefully selected range of premium, third-party certified ironmongery, chosen to complement our manufactured fire doors while delivering exceptional reliability, durability and compliance.

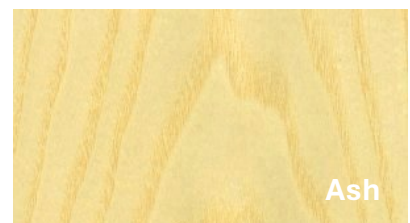

Walnut

White Oak

Maple

Ash

From hinges, locks, and latches to closers, seals, handles and access control hardware, every component is specified to meet the exact requirements of your project and to ensure complete compatibility with the fire door assembly.

Our experienced team provides expert guidance throughout the selection process, helping you achieve the perfect balance of performance, aesthetics, and regulatory compliance
